

Click to Read: Life Skills is a collection of four entertaining, colorful, related stories: Ben Goes Shopping, Community Signs, How Much Is It Worth? and What Time Is It? Each story uses SymbolStix to build vocabulary, encourage early literacy and support comprehension.

Students can hear the story read to them in a cause and effect mode, expand meaning of text and picture symbols in an interactive mode, and can then demonstrate their understanding by arranging the symbols to retell the story in any of three reading levels. Each story also comes with three Show What You Know activities - Bingo, Concentration and Vocabulary Practice. Students demonstrate their understanding of the core vocabulary by using the symbols to play at different reading levels.

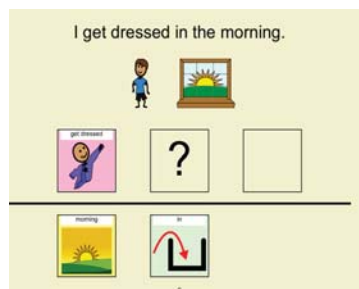

Early reading is fun and easy - just click!

Ben Goes Shopping

Community Signs
